6. Bingo75 Winning Categories

10	20	**	60	74
02	29	43	47	72
06	22	39	57	76

If you match the four corner numbers in any grid on your ticket up to the 30th number drawn, you are declared a winner of the Corners Category, and win the relative fixed prize of this category. All such players are declared winners for the Corners Category.

Note: A grid winning in the Corners category can also win again in the CROSS and SNOWBALL or HOUSE categories.

6.2 Cross Category

14	23	38	51	62
15	30	46	54	75
01	16	**	49	70
04	22	35	48	64
12	18	36	53	74

If you match the eight numbers forming a cross (third vertical and third horizontal lines) in any grid on your ticket up to the 38th number drawn, you are declared a winner of the Cross Category, and win the relative fixed prize of this category. All such players are declared winners for the Cross Category.

Note: A grid winning in the Cross category can also win again in the CORNERS and SNOWBALL or HOUSE categories.

6.3 Snowball Category

14	23	38	51	62
15	30	46	54	75
01	16	**	49	70
04	22	35	48	64
12	18	36	53	74

The prize in the Snowball category is won if you manage to match all 24 numbers in any grid on your ticket, by the 46th number drawn in any particular draw, or by a higher number specified to be drawn according to the Snowball promotion implemented (Section 7.1).

Numbers will continue to be drawn up to the 46th number, or up to the number specified to be drawn according to the Snowball Category Promotion implemented (Section 7.1), irrespective of whether or not a winner is found in this category before the amount of numbers specified to be drawn for the Snowball category is drawn.

If one or more grids are winning grids in this category on the same or with different Bingo75 tickets, then the Snowball prize is shared equally among the number of winning grids in this category.

A grid which won in Snowball category cannot win in the House category.

6.4 House Category

14	23	33	51	62
15	30	45	54	75
01	16	**	49	70
04	22	35	48	64
12	18	36	58	74

The prize in the House category is won if you manage to match all 24 numbers in any grid on your ticket, by the 53rd number drawn in any particular draw, or by a higher number specified to be drawn according to the House promotion implemented (Section 7.2).

Numbers will continue to be drawn up to the 53rd number, or up to the number specified to be drawn according to the House Category Promotion implemented (Section 7.2), irrespective of whether or not a winner is found in this category before the amount of numbers specified to be drawn for the House category is drawn.

If you match all 24 numbers in any particular grid up to the 53rd number drawn or up to the number to be drawn specified according to the House promotion implemented (Section 7.2), you are declared as a winner in this category, and get the prize of this category.

To win in the House Category, at least one of the twenty four (24) numbers in the winning grid should match any of the numbers drawn after the numbers defining the Snowball are drawn.

Note:

- A ticket can result a winner in the SNOWBALL, HOUSE, CROSS and/or CORNER categories with different grids.
- A player may have more than one winning grid on the same ticket. In this case, the player is entitled to the winning according to his/her total number of winning grids.
